Will Cheung FRPS has been a keen photographer for many years and his enthusiasm for taking pictures is as intense as ever. He specialises in being a non-specialist in respect of subject selection and enjoys scenics, people and nature in more or less equal measure. In his popular lecture entitled My

Passion for Photography he talks about what drives him on as an enthusiast photographer showing pictures from his past and current self-imposed projects. Along the way he reveals his techniques and gear used to capture his pictures and tries to encourage all to enjoy their picture-taking.
